**NEWSLETTER – JANUARY—FEBRUARY 07 – ISSUE 35**

**DIARY DATES**

**FRQLD COMMITTEE MEETINGS**

January 20th  
February 24th  
March 17th  
April 21st

\*\*\*\*\*

**SPECIAL MEETING**

Saturday  
24th February 2007  
11.00AM

**AT THE QLD PARKS & WILDLIFE CENTRE  
JUBILEE POCKET**

**Guest speaker PETER SYKES, QPWS**

**SPECIAL MEETING  
FOLLOWED BY A SOCIAL GET  
TOGETHER WITH  
SNAGS ON THE BBQ**

**BBQ lunch & drinks provided**

**RSVP. SANDY on 49473324 or  
email:sandyc18@bordnet.com.au**

\*\*\*\*\*

**ANNUAL GENERAL MEETING**

**Saturday 21st April  
Qld Parks & Wildlife Service Office  
Jubilee Pocket**

**MEMBERSHIP RENEWALS**

**Don't forget to update your Membership  
Re-newals.  
*If your membership is not current you are  
not covered by FRQLD's blanket permit to  
care for wildlife.***

**For membership enquiries please phone  
Lynne Clarke on 49465736.**

\*\*\*\*\*

**FRQLD LICENSE**

**If you rescue, transport and /or care for  
wildlife you should have a copy of our  
blanket permit on hand at all times.  
We recommend you keep a copy in the  
glove box of your car in case you are res-  
cuing and transporting animals.**

\*\*\*\*\*

**ANIMAL RECORDS**

**Please forward all Animal Records to the  
appropriate species co-ordinator by the  
end of each month to ensure your records  
are  
recorded on our new database.**

*Max, Min & Aggro  
Free but hungry

## **NATIONAL WILDLIFE REHABILITATION CONFERENCE**

6h - 9th August 2007

[www.nwrc.com.au](http://www.nwrc.com.au)

Queensland Wildlife Rehabilitation Council Inc.  
[www.qwrc.org.au](http://www.qwrc.org.au)

### **KREFFT'S SHORT-NECKED TURTLE, Emydura krefftii**

I would like to remind EVERYONE that it is illegal to take any native animal from the wild without a permit.

This little guy was caught by school children and taken home to be kept as a pet. Luckily it was taken to school for show and tell and was confiscated by the teacher.

Update next issue.....

## **PRESIDENT'S REPORT**

I hope everyone had a good Christmas and new Year. Ours has been quite hectic, with working full time, visitors, baby birds and dealing with the following. Maybe I'll get my Christmas break in February?!!

### **Xmas raffle & dinner**

Thankyou to Sandy & Maren for organising. They did a wonderful job. Both events were very successful. RSL venue and food excellent for the dinner and everyone who attended has a lovely time and enjoyed the food and the night.

### **School & Community Education Project PCYC – Wednesday 17<sup>th</sup> January**

Sue & Jacqui attended and talked to 38 children aged between 6 & 12. We used the new display board with lots of Sandy's photos. The adults gave us very positive comments on the board. Ellen from the Guardian attended and did a story for the paper.

### **Youthspace - Friday 12<sup>th</sup> January**

Sue & Jacqui attended and talked to 8 young teenagers. We used the new display board with lots of Sandy's photos. The adults gave us very positive comments on the board. The co-ordinator for Youthspace, Amanda, is in the process of joining FR and used to be a possum carer. Amanda has invited us back to do more talks, maybe coinciding with such events as Threatened Species Day etc. she also asked if there were any projects in which the kids could be involved to help FR. I suggested maybe building Possum Boxes etc. Amanda will speak to the woodwork teacher at the local school and see if we can organize something. She will also investigate some funding for materials.

### **Whitsunday Childcare, Cannonvale Thursday 25<sup>th</sup> of January**

I was contacted by Natalie who would like us to give a talk to about 20 children aged between 3 & 6 yrs. She wants this to coincide with Australia Day = Australian Animals. Di & Sue will be doing this one. Thankyou for your help ladies.

## **Biodiversity Levy Committee**

The council are trying to form the above committee who will decide on how the biodiversity levy money should best be spent. Scott Hardy emailed me to ask if FR would like to have a representative on the committee. After discussion with other committee members it was decided we would nominate Sue McLeod who volunteered for this job. Sue has had a vast range of experience on committees, and with our Flora & Fauna. Sue has shown a keen interest in our environment and it's biodiversity, so would be well suited for the position. I can stand in for Sue if she is away at any stage. We are currently waiting on a reply from council.

### **Barbed Wire Action Plan**

This email came through to me via Peter Alden (LFW), and I subsequently forwarded on to all FRQLD members and friends on my FRQLD email list. I contacted Jenny MacLean (Tolga Bat Hospital) who is involved in this plan and have agreed to forward any records we may have which will help with their statistics. This task will be made easy for me with the help of AI's database. Thanks again AI.

I then had a call from Patricia Julien – MWNRN who has already seen the plan. They are looking at maybe organising some funding for incentives for graziers to change or alter existing Barbed wire fences.

If you do rescue any type of animal from a barbed wire fence please be sure to get accurate details such as location (eg exact place, is the fence near food trees or watering holes etc), which strand of wire was the animal caught on? If you did not receive a copy and are interested in this plan please give me a call or email and I can forward on more details.

### **Newsletter**

Finally I have found an eager new member to take over the newsletter!

Shelley Edwards has offered to take over as newsletter editor after this issue.

Thankyou Shelley. I hope members can help you in your new role by submitting lots of stories and photos of their critters.

## **CHRISTMAS DINNER & CHRISTMAS RAFFLE**

### **Fauna Rescue Xmas Meal at the RSL Proserpine**

The Function was a get together to mix and mingle with other members and their like minded friends over a Christmas Meal with one no fuss raffle for the evening.

We made a profit on the evening of \$451.25

### **The Christmas Wheelbarrow of Cheer & Hamper**

We made a profit of \$1227.10 to add to our coffers.

The prizes were drawn at Centro Shopping Centre with the Manager from Woolworths Andrew De Bono drawing out the first prize, Suzanne from Centro Management, Bill Dinnie, Maren Matthew, Le-Anne & Andy Dinnie and myself Sandy Cleeland were present.

### **First prize was won by J Blair of Gregory and second prize by C. McLeish Crystalbrook.**

The prizes have been delivered to their ecstatic recipients including the koala mascot.

Thank you all for your help and donations.

Helping sell the raffle tickets at the venues Ian Cameron, Sandy Cleeland, Bill Dinnie, Marita Lean, Sue Mcleod, Maren Matthew, Gerry O'Connor, Cathie Shoemsmith, Leigh Skead & Jackie Webb.

For selling the newsletter raffle tickets Sandy Cleeland, Shelley Edwards, Michelle Grigg, Carmen Johnson, Murray Kennedy, Marita Lean, Dawn Miller, Maria Plemenuk, Gail Schmierer, Jasmin Tyree and Jacqui Webb. Thank you to Jan Jarrats office for the bright blue wheelbarrow.

A big thanks to Fausts IGA for their generous donation of food to the value of \$40 towards the hamper, Metropole Hotel for the carton of stubbies and the magnum of wine, Lenards for \$15 gift voucher, Di Jessop & Col Forster for the carton of beer and bottles of wine, Lucy Gormly food & nibbles, Lynne Clarke xmas pud and wine, Le-Anne & Andy for wines, Gerry O'Connor for the spirits, Derek Webb for the wine, Jacqui Webb wine, goodies for the hamper and chasing and gathering donations, Marita Lean for the wine & food, Shelley Edwards for the wine & goodies for hamper, Carmen Johnson for the wine, Leigh Skead for the xmas cake, biscuits & wine, Maren & David Matthew and the Hydeaway mob for the wines & nibbles, we had so much it was wonderful.

I have possibly missed some people for which I am sorry but please except my thanks. A special thanks to Gerry for storing and transporting the wheelbarrow and hamper to the venues

Sandy Cleeland

## **DONATION**

This was a letter received recently from a member who contacted one of us on the Fauna Rescue Hotline. Jean sent us a donation along with this lovely letter.

## FEEDING WILDLIFE

*I regularly receive emails from faunaoz, the forum that Gerry set up for wildlife carers, as a result of the phone conference which we were involved in when QWIRC was formed. There has been a lot of discussion recently on feeding wild animals and the feeding of seed to lorikeets. Marian, a regular on faunaoz, wrote the following email, points which most members of Fauna Rescue try to get across to members of the public.*

*Ed.....*

Wildlife in our area is precious and beautiful. We watch birds in Grevillea trees, Bottlebrushes and other native shrubs they are searching for their natural food, Kookaburras dive to the ground to pick up lizards or crickets, Magpies foraging around looking for worms and other insects, most days you might hear baby birds calling for their parents to feed them. At night Possums and Gliders can be found in tree's eating leaves, insects, pollen, nectar and sap. If you're lucky to find a Glider you might see it glide from tree to tree. Most days you might see a Wallaby or Kangaroo that may come to feed on grasses close to your home.

Over the last week it has rained enough for native plants to bloom and grow so there's food for our wildlife to feed on, without us interfering with nature. Lately we had calls regarding, what foods to feed possums? Even though wildlife may come to your back verandah or into your yard, we advise the best thing to do is let native animals feed themselves, they know which plants and shrubs are correct for their diet. If we interfere with their diet native animals and birds don't get the correct nutrients that their diet requires. By feeding Possums we are cutting their life span down from 10-12 years to approximately half. Possums also make a nuisance of themselves to your neighbors, your neighbors class these as pests, this is created by feeding them. Possums CANNOT be relocated and it is illegal for anyone to remove a possum from territory. Each possum has their own territory, if it is moved into another area, that Possum will be killed by other possums and predators - foxes, owls, dogs, and cats. Please let nature feed itself, the weather has encouraged growth of our native environment so there is plenty of native food.

If you were to place bird seed out for the birds it's very important to choose the correct seed, please be aware that black sunflower seed and Sunflower Seed alone is very bad for any bird, it's very fatty and unhealthy for them it would be like eating fish and chips for dinner every night. Bread, honey and Sugar is another thing that is VERY bad to feed any animal, if it's not found in a native environment it will harm any native animal. An appropriate seed is what they call small parrot mix it is available from our local produce it is a fantastic mix of seed and grains, we do suggest to only give a small amount every few days. When feeding from a bird feeder it is suggested to have the feeder up high, the same is suggested for leaving out water, as feeding birds make them an easy target for cats, dogs and hawks. Please remember to wash it out nightly, many bird diseases are being spread through bird feeders, please don't leave seed in it overnight as seed is very harmful to Possums, it will cause bloating, their belly will swell up and it can be fatal. By feeding birds it can also make them dependant on you and a nuisance to your neighbors and if you go away or move house they may starve. Many WIRES volunteers have attended rescues where a bird had been feeding on a bird feeder, and been startled they have flown into windows, this can cause serious injuries.

The beautiful Rainbow Lorikeet is from the Parrot family; their diet consists of Nectar, not bird seed, nor bread, sugar and honey. They have a brush at the tip of their tongue so they can scoop out nectar, if they eat seed this bristle becomes damaged and they are unable to get nectar from native blossoms. Most of the time these birds come into care with bad vitamin deficiencies and feather damage this is from eating seed. If you want to feed Rainbow Lorikeets purchase a nectar powder from your local produce and pet shops. The best way to encourage native animals and birds to your yard is to plant native shrubs. We all love to watch birds and possums, if we can keep it that way by not feeding them, they will be healthier and live longer in their natural habitat.

*Marian*
